

Agile Quick Start

Duration

In Person: 1 day
LiveOnline: 2 sessions of 4 hours

Certification / PDUs

An Agile Quick Start digital badge will be available upon successful completion of the course from Skills Development Group.

This program will contribute 7 PMI® professional development units (PDUs) towards your chosen certification (7 Ways of Working).

Intended For

- This program is aimed at:
- Team members or leaders initiating a new agile initiative or looking for a refresher in agile delivery practices
 - Anyone looking for basic grounding in agile ways of working

Prerequisites

There are no prerequisites for the Agile Quick Start class.

Are you or your team looking for a quick introduction to Agile principles and practices or a refresher before starting a new initiative?

The agile way of working promises faster delivery of quality solutions with less time and money wasted. That means happier customers, teams, and stakeholders.

Our Agile Quick Start program is designed for individuals and teams to get up to speed quickly and consistently with Agile ways of working. You will get hands-on experience on what it means to work and think in an Agile manner, using techniques that are framework independent.

Learning Outcomes

During this program you will learn about:

- Why agility is important and how it is defined through the 4 values and 12 principles of the Agile Manifesto
- The Value Lifecycle and the different stages that we iteratively pass-through
- The roles and responsibilities of a typical agile team
- The key events and activities of the iterative (Scrum) and continuous (Kanban) workflow
- The discovery process and key practices including the idea, personas, user stories, prioritisation, estimation and the definition of done
- The agile approach to elaboration

Lecturing is kept to the minimum necessary where most of the learning is achieved by applying the practices and techniques in group exercises. Our LiveOnline delivery is over one day (each four hours in duration). The instructor is 100% live and interaction and learning objectives are the same as our in-person classes with the added benefit of being able to take this course from your home, your office or your home office. Since this class is delivered over half-days it allows for greater flexibility and leaves you with time each day for other work or activities.
